CA Finishing of Vessels by Alan Trout

San Antonio, Texas is my home and I have lived in the area all my life. My home and studio are in the Tobin Hill neighborhood at the northern edge of downtown.

The last few years I have focused my work on what I like to call my "Syntho Organic" forms. I blend brightly

pigmented acrylic resins with wood and other organic materials. All are finished with a glasssmooth or soft luster finish. My daily environment influences my work more than anything else. My family, the places I go, the things I see, and childhood memories all have a

significant impact on my work. I like to think I see the “abstract” in my environment.

I pour a little piece of myself into everything that I make. I create for myself, but when others get enjoyment out of my work, it makes it that much better.

== CA finish: It’s not just for pens ==

CA finishing of vessels and other forms can be durable, quick, and with a little practice, an easy finish to apply. I began using this finish on my smaller turnings several years ago. Since then, I have started using it on larger pieces as well.

I wanted a gloss finish I could apply on the lathe without any spray equipment, which had the durability of a catalyzed spray finish. Spraying small pieces is wasteful of time and material.

Pen turners gave me this idea...I had a pen that was about 8 years old with a CA finish that held up better than its plating. So I knew durability was excellent, but was told by several people that the application was an issue and that it couldn’t be done on pieces as large as I wanted to do.

President's report for May 2017

- **Welcome new members:** Clarence Brown, Alvin Emery Jr., Mario Gonzalez and Mark Hannah.
- **AAW half price membership** is still available until June 30th. If you have never been a member of the American Association of Woodturners, now is your chance to join for ½ price. You can sign up here <http://tiny.cc/AAWNewGen> . Brochures will be available with James Haynes.
- **If you missed a class, or the all day demonstrations,** with internationally famous turner Alan Lacer you missed a great chance to learn how to use one of the most useful woodturning tools, the skew. We now have Alan's DVD and book in our library. Check it out. And you just thought the skew was a glorified paint can opener.
- **This Thursday is open shop/swap** It will be starting at 3:00pm before our regular meeting. We will have lathe stations for spindles, bowls and tops along with two grinder stations and mentors to provide hands on answers to all of your woodturning questions. Don't be embarrassed to ask questions, we were all beginners once, and want to help.

If you have any woodworking item you no longer need, bring it to sell or trade. I know there will be a grinder, a mini and a maxi lathe for sale and a bunch of turning tools. As usual hotdogs, chips and drinks will be available for your dining pleasure. Please have correct change. Hotdogs \$1, chips and drinks 50 cents each.

- **"Bob's Challenge"** for May is an off center weed pot/vase. You can really use your imagination on this one. How large, or small, can a weed be? Remember you get one quarterly drawing ticket for each challenge you participate in. I know the shops are going to start getting hot in the Texas heat but try to keep your skills up by completing each month's challenge.
- **SWAT is on the horizon.** As fast as this year is passing August will be here in no time so you need to get your SWAT registration <https://wpforum.wufoo.com/forms/swat-2017-registration/> completed. Reservations for hotel or camping are also filling up rapidly. SWAT is August 25th- 27th in Waco.

See you at 3:00pm for open shop Thursday and be safe. We don't need a new "safety coordinator".

Last Month's Critique

Each month we have a Critique table where members can bring in items they have turned for a constructive critique of their turning. We encourage all members, especially members new to turning, to submit their turnings for critique. One of our members who is recognized as being an “expert” turner does the critique. The objective is to provide constructive input to help members develop their skills. All of us learn from the critiques.

Due to time constraints at the meetings and inputs from membership, a Board member will select three (3) items to be critiqued. Below is a list of the turners who participated in the March critique process.

Ken Cardin Jimmy Fife Dick Koch

Beads of Courage Program

The Beads of Courage program has had a good start but we need to begin knowing how many have been completed or are in the final stages. We have not been called to turn any in yet but they could at any time.

For the boxes that have been used at the hospital before Waco in August, we will take a picture and include it with those we take to Waco to display. There is no contest but they do want to have a display. This is a part of our clubs community support.

Just remember these lidded bowls are going to children. The bowls do not have to be super large or super fancy (but they can be), but they need to be functional for a child to store his or her beads.

We would like to see at least 25 new bowls this year. We are working with Robson Ranch wood workers so, with their flat wood boxes and ours, it is hoped we can meet the needs of the hospital. The Golden Triangle Woodturners have joined us to supply lidded boxes to our Hospitals. Our ladies have also made great looking B of C bags.

See the requirements in March's newsletter or talk to Ron Howe or Ray Moyer.

EMPTY BOWLS

Empty Bowls is an annual fund raising event for the Tarrant Area Food Bank. The Food Bank provides food to sister agencies in 13 surrounding counties. The sister agencies then provide the food to needy children and families. Patrons at the Empty Bowls event pay \$60 or more and get to choose a bowl (wood, ceramic and glass) to take home and sample food from numerous booths of local restaurants. There are also numerous corporate sponsors that provide a sizeable portion of the total donations.

This last February the event raised \$241,000, slightly more than last year. The next Empty Bowls event will be in March 2018. We have accumulated 54 bowls and one other item. Jimmie Gill even brought four bowls all the way from College Station. What a guy! Larry Roberts contributed two bowls under anonymous but I put them under his name anyway. Keep them coming. We have a long way to go to get to a respectable number by March, 2018.

If you have any questions or comments, let me, Ron Traylor, know at randkbiz@msn.co
