Turning a Bowl in a Bowl by Tod Raines

WOODTURNERS OF NORTH TEXAS
FORT WORTH, TEXAS

Interactive Remote Demo - November 19th, 2020

*Turning a
Bowl in a Bowl*
by
Tod Raines

I started woodworking in the early 1990's, making furniture and built-in cabinets for our home. I bought my first lathe in 2002 and was self-taught for the first couple of years. I got involved with the Dallas Area Woodturners club (an American Association of Woodturners affiliate) which was a big help. In 2016, I became the treasurer of our club and I am now Vice President. In April of 2017, I started Woodturning Tool Store, an eCommerce business selling woodturning tools.

I enjoy the process of turning and I use a mix of planning and serendipity as the creative process evolves. Since woodturning is a subtractive art form there needs to be some planning involved along with knowledge of the natural medium and its tendencies. It is the unknown and spontaneous nature of working wood that intrigues me, but also the process of how to get to the final piece. I enjoy showing and teaching others this craft and to help them on their journey of woodturning.

The Woodturners of North Texas newsletter is published monthly. Inputs are due to the editor by the tenth of each month for inclusion in that month's newsletter.

Calendar of Events

November 19th - Regular Monthly meeting 6:30 PM

Location: Remote - Zoom meeting

Demonstrator: Todd Raines

Subject: Bowl Within a Bowl

Tod Raines will be demonstrating the process of turning a bowl in a bowl. I don't think our club has had anyone do this demo before so we all should learn something. Tod is a great demonstrator and I'm looking forward to seeing this one.

December 17th - Regular Monthly meeting 6:30 PM

Location: Remote - Zoom meeting

Demonstrator: Greg Stehle

Subject: Turning OSB Boards

Greg Stehle will be doing a demo on turning a piece from OSB.(oriented strand board) Greg has shown work that he has done with osb at club meetings in the past. It's amazing how he is able to use a common construction product and make such beautiful turnings.

January 28th - Regular Monthly meeting 6:30 PM

Location: Remote - Zoom meeting

Demonstrator: Emiliano Achaval

Subject: Calabash Bowl

Emiliano Achaval will be doing his calabash bowl demo. Emiliano lives in Hawaii and is a moderator on the AAW website. His demo includes turning a calabash bowl and showing how he installs bowties in the bowl to keep a crack from spreading. This will be very interesting and educational.

Calendar (cont.)

February 25th - Regular Monthly meeting 6:30 PM

Location: Remote - Zoom meeting

Demonstrator: Jeff Allen

Subject: Flower Bud on a Stem

Our own Jeff Allen will be doing a demo on how he turns a flower bud on a stem. This is called a PODLET. This will be Jeff's first demo. Jeff is a really good turner and I'm expecting this to be great.

WNT 2021 MEMBERSHIP RENEWAL

Between October 12 and 17, 2020 an email was sent to each current member by James D. Haynes with individual information and steps for membership renewal for 2021.

If you did not receive yours or somehow lost it please email me at jhaynescpa@sbcglobal.net to request a repeat.

President's Notes for November, 2020

Greetings all. I pray this newsletter finds you safe and healthy.

I sat in on a ZOOM meeting of the Trinity River Woodturning Council (TRWC) and was impressed by their energy and optimism. They are in full planning mode for another woodturning hands-on weekend in October of 2021 with instructors from local to national. They plan to start accepting registrations by late spring 2021. Speaking of TRWC, their president, Tod Raines, is also our demonstrator this month. Not to be missed. He is an excellent turner and very good at the technology of remote learning.

A big thanks to John Lauderbaugh, James Boyett and Glynn Cox for the presentations last month. John sure makes it look easy to turn out an attractive marketable snowman. And don't miss this month's shop notes section before the demo when Glynn Cox will be passing along some great information about shop lighting.

As I am sure you are aware, the area's citizens still need help to keep food on the table. The Tarrant Area Food Bank's (TAFB) prime fund raiser, Empty Bowls, was cancelled and the need is greater than ever. From what Ron Traylor has told us, the TAFB does not have room for more bowls for a future Empty Bowls event. But, don't stop turning. Ron has reached out to his local food bank (that receives groceries from TAFB) and has donated bowls to their gift shop. Another way to help raise funds for those in need. Ron will be on-line this month with the head of that local food bank with ideas of how to help.

I have come to realize yet another benefit from having a working shop. It helps keep me busy and keeps me out my wife's way for a good portion of the day.

Keep turning and be safe.

**Bill Collins
President**

SHOP TALK

November, 2020

LIGHT YOUR SHOP

In our November Zoom meeting, I will show and discuss the attributes of various types of LED lighting commonly used in woodturning shops. I will discuss area and point of work lighting including power, lumens, color temperature, and types of LEDs as well as the latest COB LEDs.

What I show in Shop Talk is how I do things. It works for me, but there are no absolutes. If you find another way that works better for you, use it.

I hope in future meetings to be able to bring other insights into lathe, tool and shop maintenance issues.

Glynn Cox
Past President

MISSION CENTRAL

If some of you are like me, you miss being able to help people out and turn bowls at the same time. Well, a new opportunity is available.

Mission Central is a sister agency of Tarrant Area Food Bank. Mission Central has two re-sale stores and several months ago they opened a new section at these stores to feature art and crafts works from their numerous volunteers and supporters. I'm sure some turned wood bowls would make a great addition and income generator for these stores. All of the profits from these stores goes to Mission Central.

Mission Central is a multifunctional organization that has a food bank, helps with job searches, tutors school children and other support functions. The heart of their mission is to empower people in need to improve their own quality of life. Their web site is: <https://missioncentraltx.org/>

You can drop turnings off at the Village Panty.

The Pantry is open Tuesday – Friday from 12:30 pm – 3:30 pm. It is located at 740 East Pipeline Road in Hurst, in the same shopping center as Kroger.

If there is enough interest I can arrange to meet and pick up the turnings. We could even meet at some central location once a month and you can fill up my truck bed!

Any suggestions or comments can be sent to me, Ron Traylor, at randkbiz@msn.com.

ANCHORSEAL IS NOW AVAILABLE

Thanks to James Boyett, David Wilson, and Michael Stephens, Anchorseal is now available for WNT members.

James and David took delivery of a drum of Anchorseal and transferred it to gallon jugs.

Michael Stephens is providing a space in his garage to store and dispense the jugs. He lives at 2223 Southcrest Dr., Arlington, TX 76013. Call him at 817-707-3418 to arrange for pickup.

The new price, including tax, is \$15 per gallon.

You are requested to pay by check so Michael can deposit the proceeds into the WNT bank account. Chase Bank will not accept cash deposits to a business account from a person who is not a signer.

Because we barely break even at this price the product is for WNT members only, and we ask that you limit your purchase to two gallons at a time. If you have sturdy empty gallon jugs bring them for exchange. Please make sure your exchange jugs have been washed inside and out.

Beads of Courage Program

This program is designed to support, strengthen and encourage children and families coping with serious illness. The program lets the children tell their story using colorful beads as meaningful symbols that commemorates milestones they have achieved along their treatment path. The average child gets 500 beads. The Woodturners of North Texas is taking on the challenge again this year.

Requirements

The lidded box/bowl interior diameter should be 6” (5” minimum diameter, 6” depth, 4” minimum). The lid should have a finial/knob that is easy for a child to grasp and not too elaborate. The ‘Beads of Courage’ logo bead to be placed inside or outside will be available at the meeting or can be mailed to you upon request. The “Beads of Courage” inscription can also be engraved or burned in the lid and can be placed inside or outside of the lid (no political or religious undertones are accepted). Customarily your box or bowl will be taken to SWAT and displayed along with the others from the club. Your thanks is knowing a very ill child is getting something that will help them through difficult times.

Please visit the Beads of Courage website at [http://www.beadsofcourage.org/resources/images/2018 AAW handout-guidelines.pdf](http://www.beadsofcourage.org/resources/images/2018_AAW_handout-guidelines.pdf) for finish suggestions and other details on ways to also contribute. The workmanship and finish should be in keeping with WNT standards.
