About me: I have lived in Tyler for over 30 years and have been married to my lovely wife, Gail, for 32 years. I have served in the U.S. Air Force. I retired from the Tyler Police Department in 2011, and currently work for Tyler Junior College as a Police Officer.

Woodworking History: I have worked with wood in various disciplines for many years and have been woodturning for just over 2 years. I began turning due to an accident involving my table saw. While I was healing I started playing with my lathe (less chance of re-injuring my hand.) I found my true woodworking love in turning, and as they say "The rest is history."

... making Good Shavings

- ☀ There is only one word for our February Open Shop... WOW!!! With 8 lathes, 3 grinders, and hot dogs in the kitchen it was an awesome sight. If you missed this one, shame on you, but not to fret because we will be repeating it in a few months. Please thank John Horn for arranging all of the turning activities. It turned out great even though he was unable to attend in person. Thank Bob Wiggins, and John Lauderbaugh for the idea of serving hot dogs and especially Susan Wiggins and Mary Clark for doing the hard stuff... cooking and serving.
- ☀ Last meeting was also a high point in attendance. We had 94 members and visitors, which has only been exceeded in attendance at our Christmas banquets. Keep up the good work bringing new turners and we will continue to provide great demonstrations. Speaking of demonstrations... I heard a lot of good comments about our Tips and Tricks demos. I always learn something new when I see these. There are literally thousands of ideas that craftsmen have developed to make their task easier or even possible.
- ☀ May is the month for our nationally famous turner Joe Ruminski to be here for all day instruction sessions beginning the 12th and a full day demonstration on Saturday the 17th. Bring your check book or cash and sign up for one or more of the 5 classes being offered. Any open spots after this Thursday will be offered to other local woodturners, so get them while they are available. See John Horn's information for dates, agenda and pricing.
- ☀ I have seen the biography of this month's demonstrator, Mike Gray. This is one demo I don't want to miss as Mike specializes in thread chasing and finials. That is one of my favorite subjects and one I need to learn a lot more about. See John Horn's article later in this newsletter
- ☀ The Empty Bowls Luncheon will be held on March 27th and will feature our 213+ turned items. A real high light of this year's luncheon will be a surprise to the VIP guests. We have turned and provided over 60 "weed pot" center pieces to grace their tables, and they will be able to purchase them. The Empty Bowls Luncheon is a primary fund raising event for the Tarrant Food Bank. Our club's donations, whether bowls, rolling pins, vases or other turned items are greatly appreciated and highly sought after. We are proud to be a sponsor.
- ☀ Are you interested in photography? Jeff Robbins has volunteered to be our club photographer but he could use some manual help early in the meetings moving the turnings from display to photo and back. A little help here will greatly shorten the time he is tied up photographing our turnings. Please see Jeff and lend a hand.
- ☀ I was unable to attend the Rockler demo Saturday but I hear it was successful, gaining at least one new member. Thank you Randy Johnson for coordinating the event.
- ☀ See you at 6:30pm Thursday and be safe. We do not need any more "safety coordinators". Sorry, no hot dogs this month.

The Art of Thread Chasing... (continued from page 1)

Philosophy: My Philosophy is simple. I believe that God has given each of us gifts, and that when He made the tree He did the best He could. So I believe we owe it to him to do the best we can with those gifts. I love to learn, as well as share what I learn. I feel that this is one of the greatest traits of this community.

Specialties: Hand Chased Threads in

Wood, Fine Finials, and various Tool Techniques.

Accomplishments: I have been fortunate in my short career. I have several art pieces in collections in South Africa, Las Vegas, and numerous pieces locally and have been chosen to show in local juried art shows. I have been commissioned, and donated, two pieces to a local charity auction. I have just started doing demonstrations.

Who's up for a Challenge?

It was very impressive at the meeting last month to see how many people participated in the sphere challenge. It was even more impressive to see the quality of the work. Great job everyone! Last week I got around to turning some eggs. I thought my first one looked pretty good until I got an egg from the refrigerator to use for comparison. I had to make some adjustment and it turned out pretty good. I even did a little decorating on some of the eggs to give them that dyed Easter Egg look. It was a fun project and I'm sure I'll be making more in the future. I can't wait to see what everyone else came up with for the challenge. Next month I'll be upping the challenge a bit to exercise your turning skills and creativity. See you at the meeting.

Last Month's program

At February's meeting, several members presented tips and tricks they have picked up over the years.

Last Month's Open Shop

We had a very good turnout for our February's Open Shop prior to the monthly meeting.

“Bring Back” Drawing Winners

Don't forget that if you were a winner of any item in the previous month's drawing, you are obligated to bring a replacement item for the “Bring Back” drawing the following month. Winners of any item should bring back a replacement turned item of their own creation to the next meeting. If you have fallen behind in bringing a replacement item for the “Bring Back” drawing, now is the time to make up for any items that you owe.

Joe Ruminski Spring Demonstrator

Our Spring Instructor/Demonstrator will be Joe Ruminski, one of the very popular demonstrators that is really making a name for himself wherever he goes. He will be with the Woodturners of North Texas from May 12th through May 17th with five all-day classes, starting on May 12th and an all-

day demonstration on May 17th. Start making your plans now to take one or more of the all-day classes because there will only be six people in each class. Joe will teach a wide variety of subjects in the classes with usually two projects in each class. There will be classes for all skill

levels, from beginners to advanced turners. Registration will begin at the February meeting. More details are available on the next page.

Joe Ruminski Spring Demonstrator

Every year the Woodturners of North Texas brings in a very special demonstrator/instructor to both give a number of all-day hands-on classes and provide an all-day demonstration that will inform, educate, and entertain you. This year we are proud to bring you Joe Ruminski from Fairview, North Carolina. Joe has demonstrated at SWAT, taught at Arrowmont and the John C. Campbell Folk School, and is fast becoming one of the most recommended demonstrator/instructors in the country. He travels over the United States providing instruction to clubs full time.

We have him scheduled for five days of classes starting on Monday, May 12th and ending with an all-day demonstration on Saturday, May 17th. You may sign up for one or more of his classes at the club's monthly meeting on February 27th for only \$125 per class. Each class is designed for a specific skill level from the absolute beginning level, the intermediate level, the upper intermediate level, and the advanced level.

In each class you will turn two projects, something you can accomplish with pride as you finish the class.

On Monday, May 12th, a class for turners with little or no experience, you will turn a Basic Bowl and a Tea Light. You will learn the fundamental techniques of using a bowl gouge on these projects.

On Tuesday, May 13th, the class is for students that need to be able to turn a basic bowl with no concern as you turn a Natural Edge Bowl and a False Hollow Form.

On Wednesday, May 14th, for upper intermediate skill level students, you should be comfortable with turning traditional bowls with no concern as you turn an Off-Center Bowl and a Side Grain Box.

On Thursday, May 15th, for upper intermediate skill level students, you should be comfortable with turning traditional bowls with no concern as you turn a Square Rim Bowl (it is not as hard as it sounds) and a Tear Drop Vase (hollowing through the bottom.)

On Friday, May 16th, for advanced skill level students, you will turn a Mini Cowboy Hat and an Off-Center Multi-Center Disk Wall Hanging.

Remember that only six people are allowed in each class and out of over 100 club members only 30 will be able to take one of the hands-on classes. We only have February, March, and April to fill up the classes. At this point, only paid up club members may register for a class but any class that is not full by the April meeting will be open to anyone with the registration fee. If a class becomes full, you may sign up as an alternate in case someone has to withdraw from the class. The class fee needs to be paid to James Haynes at the time of your registration unless prior arrangements have been made.

If you have any questions, you may contact John Horn for further information.
